Hi! Lance,

This is the only ppt slide deck I have.

Thanks,
Ameesha

Hi Ameesha,

Looking forward to meeting with you tomorrow!

Attached is the powerpoint we will be using for tomorrow's meeting.

Have a great evening!

Best,

The Icahn School of Medicine at Mount Sinai sits on the occupied lands of the Lenape Peoples. The United States is founded upon exclusions and erasures of many Indigenous peoples, including those on whose land this institution is located. This acknowledgment is a first step in the commitment to work towards dismantling the ongoing legacies of genocide and settler colonialism. To support the Indigenous peoples, such as the Lenni Lenape, who were forcefully displaced by European settlers and their descendants to create New York City and the United States, check out [Manna-Hatta Fund](#).

USE CAUTION: External Message.

Hi! Mary,

Thanks so much for the clarification. I will make the change in the agenda shortly. As discussed last Friday, please send me your contact at the Federal Railroad Administration.

Thanks,
Ameesha

Subject: Re: Follow-up discussion with CURES

Ameesha, As discussed, to address EJ concerns CURES has supported in Eastern Queens and Brookhaven, this needs to be a Waste Export discussion. Waste-by-rail is a transport mode that is only a piece of the problem. Other aspects are land use/siting, transfer stations, containment, truck transport, diversion, and regional planning that protect communities and the environment and. It's great that waste-by-rail will be discussed in this interjurisdictional forum but it's one aspect. Best, Mary
